

Name:	Ravindra Shivram Gurav	Nationality:	Indian
Position Applied For:	Associate Engineer	Years of Experience:	29

Education

Diploma Certificate in Civil Design Draughtsman, Bandra Engineering Institute, Mumbai, Maharashtra, India

Training/Skills/Certificates

- SP3D & Smart sketch Intergraph Singapore | 2010
- PDS FrameWork Plus Undergone Training by Chemtex Engineering India Ltd. | 1996
- ACE FPL Utilities (FWP) Undergone training by Technip Geoproduction (M) Sdn.Bhd. | 2002
- PDMS | BOCAD AVEVA Malaysia | 2010
- MicroStation (V7 | V8 | V8i) Undergone training by Chemtex Engineering India Ltd. | 1996.
- AutoCAD (2008 to 2015) Vighneshwar Computer, Kurla, INDIA | 1994
- CadWorx (2020) Undergone training by SNC Lavlin | 2021.
- Advance Steel Undergone Training by Kent | 2024
- LFM 5.2.0.0 Undergone training By SNC Lavlin | 2021
- Bentley ProjectWise Explorer Undergone Training by SNC Lavlin | 2021
- Leica Geosystems Undergone Training by Kent | 2022.
- Microsoft Excel 2007(Advance) New Horizons, Malaysia | 2011
- Smart Plant Review Undergone Training by Chemtex Engineering India Ltd. | 1996.
- Navis Works Undergone training by Technip Geoproduction (M) Sdn.Bhd. | 2008.
- Universal Plant Viewer Undergone Training by Technip Geoproduction (M) Sdn.Bhd. | 2016.
- Visual Basic 6.0 Basic training By Technip Geoproduction (M) Sdn.Bhd. | 2008

	• 2025 WOW Moments Automation of Generate Civil BOQs directly from AutoCAD using LISP and VBA. • 2024 WOW Moments Automation of The process of exporting drawing from S3D to AutoCAD in BAB Project • 2023 WOW Moments Automation of Automation in CAD works to reduce drafting effect and Addition of new Dashboard for LYB NextGen program • Certificate Of Excellence, by KENT ENGINEERING INDIA Pvt. Ltd • 10 Years Long Service Award, TECHNIP, Kuala Lumpur, Malaysia • Appreciation Letter P58 & P62 FPSO, TECHNIP, Kuala Lumpur, Malaysia • Appreciation Letter, Black & Veatch Prichard Inc. Kansas, USA • Appreciation Letter for Bar Bending Schedule, Chemtex Engineering India Ltd

Work Experience

Dates of Employment	November 2018 – Present
Location	Mumbai
Job Title	Associate Engineer

Company:

KENT ENGINEERING INDIA PVT. LTD MUMBAI

Project:

LyondellBasell LYB_LEAP (Channelview / La Porte / HRO/Bayport)
 ABU ALI GAS GATHERING PLANT Equipment platform structure
 BAYTOWNINEOS MERCURY PAO,
 CHOCOLATE BAYOU, TX
 EXXONMOBILE BPO-P2C Project

Duties and Responsibilities:

I coordinate with multidisciplinary teams and vendors to identify and resolve design clashes, ensuring smooth and efficient project execution. I review and verify engineering drawings, monitor project progress, and provide technical guidance, online training, and mentorship to drafters and designers to resolve technical challenges and achieve project objectives.

I actively contribute to improving workflow efficiency by developing automation tools using scripting languages such as AutoLISP for AutoCAD, VBA, and VB6. These automated solutions help reduce repetitive tasks, enhance accuracy, and improve overall productivity. Additionally, I support junior designers and engineers by guiding them in developing their technical skills and strengthening their understanding of structural design principles while maintaining project consistency through regular team coordination.

Key Responsibilities:

- Develop automated programs that enable team members to focus on higher-value tasks while ensuring consistent and reliable output.
- Prepare comprehensive **civil and structural steel engineering layouts**, including detailed **fabrication and assembly drawings**, ensuring accuracy and compliance with project specifications.
- Utilize **CAD and 3D design software** such as **SP3D, PDS, PDMS, AutoCAD, CadWorx, LFM, Leica Geosystems, Advance Steel, and MicroStation** to produce detailed **2D and 3D models and drawings**.
- Ensure all designs comply with **project specifications, industry standards, and applicable local regulations**.
- Collaborate closely with **engineers, architects, and other stakeholders** to refine designs and resolve technical issues.
- Conduct detailed **design reviews** to maintain high standards of **accuracy, quality, and compliance**.
- Identify potential **design risks or conflicts** and recommend practical engineering solutions.
- Perform **quality assurance checks** on drawings and documentation before submission or issue.
- Develop **automation scripts using AutoLISP (AutoCAD) and VB6** to streamline repetitive tasks and improve workflow efficiency.
- Generate accurate **Material Take-Off (MTO) reports** and troubleshoot design or software-related issues.
- Support **CAD administrators** in setting up and managing **section libraries, catalogs, and report customization tools** to enhance project productivity.

Dates of Employment	2019
Location	QATAR
Job Title	Sr. Designer

Company:

QUTAR KENTZ W.L.L. Qatar (Deputation from KENT)

Project:

QUTAR PETROLIUM

Duties and Responsibilities:

- Prepare and deliver high-quality structural, RCC, and civil underground models, including general arrangement (GA) drawings, detailed drawings, fabrication drawings, and bar bending schedules.
- Develop detailed steel connection joints, stairs, ladders, and steel/concrete take-off bills of material (BoM).
- Ensure compliance with project specifications, industry standards, and applicable codes.

Dates of Employment	Nov.2004 to Feb 2018
Location	kuala lumpur, MALAYSIA

Company:

TECHNIP GEOPRODUCTION (M) SDN.BHD. MALAYSIA

Project:

Client: **PETRONAS Refinery and Petrochemical Corporation Sdn. Bhd.**

Project title: **RAPID OUI**

Technology: Refining (Segment: **Onshore**)

Project type: EPC (Contract type: Reimbursable)

Client: **Nghi Son, Vietnam**

Project title: **Nghi Son Refinery and Petrochemical Ltd.**

Technology: Petrochemical (Segment: **Onshore**)

Client: **PETRONAS**

Project title: **Petronas Floating LNG Project (FLNG)**

Technology: LNG (Segment: **Offshore**)

Client: **PETROBRAS**

Project title: **FPSO PNVB P-58 & P-62 Project (Module M-05 & M-06 (KOC))**

Technology: LNG (Segment: **Offshore**)

Client: **MMHE Technip Joint Venture PETRONAS**

Project title: **Petronas Carigali Turkmenistan Block1 Project Onshore Gas Terminal**

Technology: Petrochemical (Segment: **Onshore**)

Client: **Vietnam Oil & Gas Corporation (Petro Vietnam)**

Project title: **Dung Quat Refinery Project**

Technology: Petrochemical (Segment: **Onshore**)

Client: **Petroleum Nigeria Ltd.**

Project title: **AMENAM TERTIARY STEEL**

Job Title	Sr./Lead Designer

Technology: Petrochemical (Segment: **Offshore**)

Duties and Responsibilities:

Extensive experience working across diverse sectors, including onshore and offshore engineering. Proficient in executing projects in the oil and gas industry, power plants, refineries, Chemical plant, petrochemical facilities, FPSO (Floating Production Storage and Offloading), and PFLNG (Petronas Floating Liquefied Natural Gas) offshore projects.

- Prepare and deliver high-quality structural, RCC, and civil underground models, including general arrangement (GA) drawings, detailed drawings, fabrication drawings, and bar bending schedules.
- Develop detailed steel connection joints, stairs, ladders, and steel/concrete take-off bills of material (BoM).
- Ensure compliance with project specifications, industry standards, and applicable codes.
- Utilize advanced software tools such as PDS, SP3D, AutoCAD, and Smart Sketch for modeling and drawing preparation.
- Generate accurate material take-off (MTO) reports and troubleshoot software issues.
- Support project CAD administrators in setting up and managing section libraries, catalogs, and report customization tools.
- Mentor and guide drafters/designers to enhance their skills and efficiency.
- Provide on-the-job training and share best practices to ensure team alignment with project goals.
- Act as a point of contact for resolving design-related queries and fostering teamwork.
- Provide guidance and training to junior designers and engineers, helping them develop their skills and understanding of structural design principles.
- Customize Side Menu for Microstation V7 & V8i (project Standard Drawing setup Levels, Cell, Dimension,)

Dates of Employment	Nov.2002 to Oct.2004
----------------------------	----------------------

Company:

TECHNIP TIANCHEN CHEMICAL ENGINEERING. CHINA

Location	SHANGHAI, CHINA
Job Title	Sr. Designer

Client: **Petroleum Nigeria Ltd.**
 Project title: **BASF POLY THF PROJECT**
 Technology: Chemical (Segment: **Onshore**)

Client: **Cnooc & Shell Company Ltd.**
 Project title: **CSPC NANHAI PROJECT**
 Technology: Chemical (Segment: **Onshore**)

Duties and Responsibilities:

- Prepare and deliver high-quality structural, RCC, and civil underground models, including general arrangement (GA) drawings, detailed drawings, fabrication drawings, and bar bending schedules.
- Develop detailed steel connection joints, stairs, ladders, and steel/concrete take-off bills of material (BoM).
- Ensure compliance with project specifications, industry standards, and applicable codes.
- Study the reinforcement details from the structural drawings to identify the types and quantities of reinforcement needed.
- Note down the sizes, lengths, and shapes of bars specified in the drawings.

Dates of Employment	Jan.1996 to Sept.2002
Location	Mumbai
Job Title	Designer

Company:
CHEMTEX ENGINEERING OF INDIA LTD

Project:

- SUZHOU POLYESTER CO. LTD., DuPont Nigeria Ltd.
- MEG II & III , Reliance industries Ltd.
- PEPSI JAINPUR EXPANSION, PepsiCo India Ltd.
- SULFUR RECOVERY UNIT - RPL, Hydrogen plant, Reliance Petroleum Limited.
- SULFUR RECOVERY UNIT - HPCL, Hydrogen plant, HPCL.
- OGD PHASE II PROJECT (UNIT-57)

Duties and Responsibilities:

- Prepare and deliver high-quality structural, RCC, and civil underground models, including general arrangement (GA) drawings, detailed drawings, fabrication drawings, and bar bending schedules.

- Develop detailed steel connection joints, stairs, ladders, and steel/concrete take-off bills of material (BoM).

-

Dates of Employment	Dec.1998 to May.1999
Location	Kansas, USA
Job Title	Designer

Company:

BLACK & VEATCH Prichard Inc. Kansas, USA (Deputation from CHEMTX)

Project:

- OGD PHASE II PROJECT, BP Lima

Duties and Responsibilities:

- Prepare and deliver high-quality structural, RCC, and civil including detailed drawings, fabrication drawings, and bar bending schedules.
- Develop detailed steel connection joints, stairs, ladders, and steel/concrete take-off bills of material (BoM).

Dates of Employment	Aug.1994 to Dec.1995
Location	Mumbai
Job Title	Designer

Company:

DAVY POWER GAS. Kalina, Mumbai, (Deputation from Geeco Consultant)

Project:

- POLY CONDENSATION PLANT , Modern Petrifies.
- STERLITE INDUSTRIES INDIA LTD., Cooper Smelter.

Duties and Responsibilities:

- Prepare and deliver high-quality structural, RCC, and civil underground models, including general arrangement (GA) drawings, detailed drawings, fabrication drawings, and bar bending schedules.
- Develop detailed steel connection joints, stairs, ladders, and steel/concrete take-off bills of material (BoM).

Dates of Employment	Jan.1993 to July.1994
----------------------------	-----------------------

Company:

UDHE INDIA LTD. Vikhroli, Mumbai, (Deputation from Geeco Consultant)

Location	Mumbai
Job Title	Designer

Project:

- BASF, Mangalore
- P.A.C.L. Nangal (a) Boiler House (b) 66 kv Switch Yard (c) c12 cylinder filling shed

Duties and Responsibilities:

- Prepare and deliver high-quality structural, RCC, and civil underground models, including general arrangement (GA) drawings, detailed drawings, fabrication drawings, and bar bending schedules.
- Develop detailed steel connection joints, stairs, ladders, and steel/concrete take-off bills of material (BoM).

Dates of Employment	Jan.1992 to Dec.1995
Location	Mumbai
Job Title	Designer

Company:

Geeco Consultant, Grant Road, MUMBAI

Project:

- INDIAN OIL CORPORATION LTD. (SAGAR), Engineering Project India Ltd. (EIL)
- 8 TONNE CAPACITY WEIGHING PLATFORM, Philips India & Glasgow Pvt. Ltd.

Duties and Responsibilities:

type here

Dates of Employment	Jan.1991 to Dec.1991
Location	Mumbai
Job Title	Arch. Draftsman

Company:

I H SHAHA & Associate, Andheri, MUMBAI

Project:

- POLYMERIZATION BUILDING, Nirlon Ltd.
- LOK – PURAM THANE, Lok Group
- SCHOOL BUILDING, DAHANU, Lok Group

Duties and Responsibilities:

- Translate client requirements and design briefs into initial architectural concepts.
- Develop detailed floor plans, elevations, and sections based on approved designs.
- Prepare accurate and detailed architectural drawings for construction, including floor layouts, roof plans, interior/exterior elevations, and building sections.

- Create 2D and 3D visualizations, renders, and perspective drawings for client presentations.

Dates of Employment	Jan.1988 to Dec.1990
Location	Mumbai
Job Title	Draftsman

Company:

M R PATIL & Associate, MUMBAI

Project:

- JOGANI INDUSTRIAL ESTATE BUILDING, Chunabhatti, Jogani.
- MAHANAGAR TELEPHONE EXCHANGE BUILDING, Cuff-pared, MTNL
- HOTEL RELAX AT MATHERAN, Hotel Relax Pvt Ltd.
- SWIMMING POOL AT UMBERGAM, Disha Land Developers.
- DHARTI CINEMA AT PAREL, Dharti Developers.
- BUNGALOW AT PARRY CROSS ROAD BANDRA, M/S Farooq Darvesh
- AIR FORCE HOUSING BOARD, Powai, Air Force & Naval.
- INDIAN AIRLINES AT MANGLORE, Indian Airlines.

Duties and Responsibilities:

Manual drafting plays a crucial role in producing the detailed and accurate drawings required for the successful execution of construction projects across various sectors.

- Draft detailed drawings of foundation plans, including strip, slab, and pile foundations.
- Indicate the location of reinforcement, dimensions, and materials used.
- Create detailed structural drawings for steel, concrete, and timber structures.
- Draft beams, columns, and floor layouts, ensuring accurate placement and connections.
- Draw reinforcement details such as bars, mesh, and stirrups for concrete structures.
- Provide bar bending schedules, including dimensions and bending angles.
- Draft designs for retaining walls, drainage systems, and embankments.
- Provide elevation and sectional views of retaining walls.
- Prepare detailed drawings for industrial buildings, including frames, trusses, and roofs.
- Include dimensions for large-scale equipment layouts, support beams, and columns.
